

Dear News & Notes team,

We would like to bring to your notice the article published by you (see below). Even though News & Notes is an internal publication, it is distributed publicly. Hence it would be liable for legal procedures when such articles by irresponsible Aurovilians are published in N&N. Any further requests to you for publication in reference to ATDC, FAMC or WC by irresponsible people needs due diligence. We are copying the legal cell of the Foundation Office to take up the matter with you next time this occurs.
